

Town of Weare Parks and Recreation

***Work Session Minute
July 13, 2010***

NO QUARUM = NO MEETING - WORKSESSION ONLY!

WORK SESSION CALLED TO ORDER: ~7:00PM

MEMBERS IN ATTENDANCE: Chuck Metcalf, Valerie King, and Mike Houseman, Coordinator. Tom Desrosiers also in attendance. Tom is interested in joining PARC.

OLD/NEW BUSINESS:

- Naomi has offered to have Merry type the meeting minutes. Pros - the minutes get typed sooner. Cons - the notes would have to be written so that Merry could read and understand them.
- The Town of Warner has expressed interest in buying our skating rink. Chuck will ask Naomi whether PARC or general funds would get the proceeds.
- The septic tanks at Chase have been pumped. Received BOS approval to have the toilet replaced using Capital Reserve Funds. Local plumber Scot Dinsmore will be doing the work which is expected to be completed on Friday.
- Someone has complained that our concert banner violates the sign ordinance. BOS is expected to discuss the issue at their next meeting.
- A minor head injury resulted from a rock throwing incident at Chase Park. Procedures were followed and Naomi will be in contact with Primex.

COORDINATOR'S REPORT

- The last concert was very successful with about 100 people in attendance. Most that came stayed for the entire concert. Mike will be in contact with the school about use of the exterior bathroom facilities.
- Mike has been checking the lawn maintenance once a week and all seems to be going well. Improvements in the mowing were noted.
- The county prisoners (under Tony Sawyer) have been cutting brush at Bolton and will be working at Ineson Thursday and Friday. Mt. Williams Inc. has donated material. Carl and the Highway staff will be delivering it to the field so Tony's men can spread it. It was suggested that Mike coordinated with Craig Reynold's (WAC baseball). Mike will e-mail Charlene Nikias to let her know that her concerns are being addressed.

- Phone call from John Nelson. He owns a camper at Cold Springs. He has a letter from Cold Springs verifying that he pays taxes. He would like to get a resident sticker for his boat. Chuck asked that Mike have Mr. Nelson provide copies of the letter to a PARC member so it can be approved (rather than involving Chase staff with this request). PARC otherwise OK with this request.
- Mike has been authorized to use one of the town trucks (Chip's) for trash pick-up. He need only keep it clean and track mileage usage.

OLD/NEW BUSINESS:

- The grass at Ineson appears to be burned. Mike was asked to check to see if irrigation is working.
- Swim lessons are going very well. Classes are full and there have been no problems to speak of.
- Suggestion made that PARC request \$50,000 (or \$10,000 per year for 5 years) for financing improvements to the boat ramp. As for the reoccurring hole at the end of the ramp, Fish and Game may be able to provide us with signs warning boaters not to power load their boats (contact Jeff King at Fish and Game). We could also ask staff to notify boaters when they inspect the boats that we do not allow power loading.

WORK SESSION ADJOURNED
